Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

Information that is being submitted that only 2% of the gun dealerships have been inspected is inaccurate. All dealers were inspected by the ATF this year and they are federally regulated so we should not be spending Oregon tax money to duplicate what the federal government is already doing. If you add this additional burden to Oregon business owners, they will either leave the state or some will become black market, which will be completely unregulated.
