

Submitter:

Robbie Jeffs

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3076

I oppose this, it is unconstitutional, I don't have a lot of money to keep paying stupid fees and jump through hoops for my right as an American citizen to have, carry, purchase, and retain fire arms and or ammunition that gives personal safety, entertainment and food for me and my family. How about this, stop trying to take away my rights as a legal law abiding American citizen and fix the drug, sex predator, theft, homelessness issues that cause all the statistics of gun violence. People that commit gun crimes don't follow laws! It is blatantly obvious the people that write these bills have not been subjected to the stress and fear of criminals lurking around your, house, vehicle, store, work, park ect. Looking to harm you or your family.
