I am a member of the DPO Gunowners Caucus. Oregonians are often asked to support or oppose something without evidence supporting the stated intent.

That is not true here. There is evidence. I SUPPORT this bill.

Obviously, if, as proponents allege and I expect will be in the legislative records, only 40 licensed dealers were inspected last year (2% of 2,000), and of these, 1:3 didn't pass the inspection, there is a compliance problem.

This bill would allow a deep dive into the data, assess whether a problem related to gun violence prevention (GVP) exists, and propose a way(s) to fix it.
