

Submitter: Ellen Franklin

On Behalf Of:

Committee: House Committee On Climate, Energy, and  
Environment

Measure, Appointment or  
Topic: HB3932

My name is Ellen Franklin and I've lived in Oregon my whole life. I'll be 57 in May. Every time I leave the state and return, I count my lucky stars that this is my home. I've played in the woods and streams as a kid and still do. The MOST important thing to me is keeping our environment clean and safe as possible. When we have an opportunity like this to clean up our waterways, I think we can't help but pass it.

My hope is that our representatives will continue to vote to save our environment, and enjoy the successes like the growth of our bald eagle population. Conservation works!

Please help our beavers do their job and keep our waters clean.

Thank you,  
Ellen Franklin
