

Submitter: Eaduard Phillips
On Behalf Of:
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3076

Greetings!

In regards to the above mentioned measure and as father and grandfather living in Eugene Or I have to say I have watch our community spiral down down down. Not by the actions of those who oppose but by the actions by those who support this measure and its likeness. In the last 10-15 years I have watched my street go from an open safe and secure place to break ins, thefts and property damage while residents were home. This is now tolerated and accepted by those who support this measure. This is dangerous and reminiscent of the Bolshevik and communist who murdered millions of defenseless people.

Don't let a history you never hear about repeat itself.

Ed Phillips
