Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3076

This is an extremely misguided bill. Gun violence is not caused by guns purchased through legal FFL's. Gun violence is not caused by legally purchased guns or law abiding citizens. More regulations placed on Oregon's small businesses will not make one bit of difference in gun violence in this state. Criminals already do not follow the current gun laws. Criminals are not using legally purchased guns. More laws will simply be ignored by the criminals in this state. At the same time, more gun laws will be another hardship to small family businesses and law abiding gun owners in this state. Legally purchased guns in the hands of law abiding citizens are a constitutional right. If you truly want to minimize gun violence, focus on criminals! Leave small businesses and law abiding citizens alone.
