

Submitter: Anne Conners

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I believe in sensible gun control, and I want my children and neighbors to live in a safer place. Currently, I listen to my kindergartner come home after her lock down drills and explain to me how to hide as far away from the windows of her classroom as possible. Guns are not toys, they are weapons. It is only sensible that that are basic rules on inspection of dealership to ensure that illegal weapons are not swimming around in our state.
