

Submitter: Michael Halverson
On Behalf Of:
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3076

Dear Judiciary Committee;

I'm writing today in opposition to HB3076, as it places undue additional burdens on a field that already has to be federally licensed. Gun dealers aren't unregulated like other industries can be, and needs no further oversight. They must already get a Federal Firearms License, and are inspected by the ATF. One mistake, and they can lose that license.

This bill is simply re-regulating what's already regulated, increasing cost to both the State of Oregon, and Local Businesses. I urge you to alter this bill back to its original form, or better, eliminate it entirely. Thank you for your time.

All the best,
Michael Halverson
