Measure, Appointment or Topic: SB1120

If passed, this legislature could hold the department of corrections accountable to actually making desperately needed improvements in living conditions for incarcerated people in Oregon. It requires the DOC to implement a list of policies for adults in custody, including policies related to gender-responsive, evidence-based, and trauma-informed practices at Coffee Creek Correctional Facility. This is monumentally important work and I am very in favor of it. Inmates are human beings and deserve to have their humans rights protected.
