I oppose this bill. You're pushing your luck with pushing gun laws and bans to the law abiding citizens in this state. There is a constitution, you have to follow it. And you can't pretend the law was written in a different context. Fix the drug problem in your inner city's, fix the infrastructure, bring money into the states, find solutions to keeping drugs off the streets. Find solutions to making the inner city's a better quality of life. There will always be bad in this world, it doesn't matter the situation, good vs evil. Your opposed laws are worth nothing more than the paper it was written. The state is safer knowing the good people are able to protect themselves. You try and take that away and it'll only get worse. The people won't listen. And sooner or later, chaos will ensue against governments. It's simple history. I do not condone any violence, nor do I wish any violence on anyone. But a simple look back at history will show you what will happen. Whether you agree with firearms or not. I hope you can put aside your own personal opinions and do what's right for the vast majority of our state. And let's find a pathway to all get along and enjoy each other while not always having the same opinions on things. Thank you.
