HB3076

I am writing this testimony in strong opposition to this bill and to inform the legislation that this country was founded on a rule of constitutional laws, laws that protected us from the tyrants that try to govern how we as people live. This bill 3076, Hb 3075 and measure 114 have no buissnes in the state of Oregon we as people of sound mind are opposed to the the enactment of either. The legislation should be ashamed of themselves that they don't follow the rules and regulations they were sworn in to uphold. This legislation is only concerning the rights of the few.
