

Submitter: Eric Canon

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

This legislation is clearly needed. We need to compensate for the sales pitch of the NRA and gun lobby. The idea you can't be a man without a gun, that you cannot protect your home and family without a gun reminds me of the pitch to sell cigarettes. We need to walk that attitude back and remind us of the concept of responsibility. Guns in the wrong hands kill. Children practice active shooter drills. What more do we need to know? Please pass this vital legislation. Thank you.
