Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3076

To whom it may concern, I oppose this bill. Not only does this bill completely go against our rights, it's going to cripple a ton of businesses. People that have worked their entire careers as a ffl, this isn't right. That money is going to come from somewhere and it's going to be in taxes to offset what the state is bringing in from gun sales. Not to mention crime rate will go up, the criminals that fill our streets with drugs and killings are not going to follow any rules. This is being pushed through by actors with out of state money and any official even entertaining these bills should be ashamed, you guys swore a oath to uphold the constitution and help protect the people and your not.
