HB3076

As a concerned citizen of Bend, Oregon, I believe we need stronger gun control and oversight to protect our communities. With over 2,000 gun dealers in the state, it's alarming that only a small percentage are inspected each year—especially when a significant number of those inspections reveal serious violations, like selling firearms without background checks.

This lack of accountability puts public safety at risk. We must ensure that all gun dealers follow the law and that enforcement is strong enough to prevent dangerous loopholes. I urge lawmakers to pass this bill and take meaningful action to make Oregon safer for everyone.
