

Submitter: William Billings

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I strongly oppose this measure because of the financial impact to low income family that choose to exercise their rights to self defense. Not knowing the actual cost and writing a blank check for something that will not make the people safer is a recipe for disaster. Rules made by people who have security details are just an exhibit of how out of touch these rule makers are and showing their disdain for the non elite. The FFLs that are going to be out of work is sad, so much for wanting to employ honest hardworking people. They are more trustworthy than a gross majority of Oregon politicians. Thank you.
