Measure, Appointment or Topic: HB3076

We are average, middle class, law abiding Oregonians. I have lost someone to gun violence. My next door neighbors lost two relatives. The people who lived across the back fence lost a wife and mother at Clackamas Town Center. One of my in laws had to hide from the active shooter at Springfield High School.

Really, it's past time to do what we can to slow down this unnecessary trauma. Please pass this bill.
