

Submitter: Jude Zedwick

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

This bill has several negative outcomes that I believe are intentionally unconstitutional. It makes it more difficult for Oregon residents and US citizens to take part in our second amendment right to bear arms. It does this by taking steps to make the purchase of firearms more difficult and by taking money from potentially already small businesses based entirely on their prior successes in this business. The bill is unconstitutional and morally wrong.
