

Submitter:

Brenda Davis

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB3076

"I oppose this measure because I believe that it is an attempt to bypass the judicial system that is already in place to deal with the issue at hand. This will cost the taxpayers more money. There already is not enough in the budget to even govern the laws that are already in place!! These measures 114, HB3075 & HB 3076 will cause NON-Criminals (MEANING LAW ABIDING CITIZENTS that contribute to society and taxes for our State to operate!) these people to be considered criminals, cause redundant procedures and paperwork for individuals, business and police departments let alone the costs to business owners, individuals and police departments and Government. Emergency declarations were intended to be used in only the most extreme situations. Using emergency powers in this situation constitutes and abuse of power which is a very slippery slope."
