

Submitter: Isaac Duke

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

HB3076 is not only against the wishes of the Oregon population but unconstitutional and violates our second amendment rights. The requirement of a state license and a taxation of past sales will put many FFL holders out of business or in difficult financial situations. Many FFL holders I know are smaller business with few employees who have families to support and children to feed, and this bill will make life very difficult for them. On top of that, HB3076 will make the legal obtaining of firearms more difficult for citizens who seek to exercise their second amendment rights, for hunting, and self defence. Furthermore HB3076 will encourage many home and gun owners to leave the state of Oregon.
