

Submitter: Jon Story

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I am submitting this testimony in strong opposition to HB 3076. Our constitution guarantees the right to move freely and bear arms, free from tyranny. Federal firearms licenses are under federal jurisdiction, and any state attempts to regulate them are invalid. Regardless of the outcome of this bill, there will be no compliance. We are not bound by any law or standard that demands we relinquish our constitutional rights. It's disheartening to say that the same state I grew up in and swore to protect, the state that taught us to stand firm for our freedoms and fight against any domestic or foreign enemy, has now positioned itself as the enemy.
