

Submitter:	Brenda Elvin
On Behalf Of:	
Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	SB1131

Chintimini seems to be the only wildlife service available now when others have closed down due to funding shortages. Rehabbers work with what little they have in their pockets, so funding these services is important. Having a center where the public could interact and view the wildlife that is cared for by the people donating their time to the center would be phenomenal and make a wonderful impact on the community. It is vital that we provide these type of services if possible because people alone just can't do enough, but with help so many lives can be saved. Please consider and pass this bill for wildlife support.
