

Submitter: Peggy Hanson-Orr
On Behalf Of: All law abiding American citizens
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB3076

Our constitutionally protected rights state that we have the right to protect ourselves, our families, and our property. It does NOT dictate how, or restrict us on doing so the way these legislators keep pushing to do. Every new law, restriction, or requirement made will only effect those who follow the law, which happens to be the majority; law abiding American citizens. No criminal is going to care one bit, and will still obtain their weapons illegally, by whatever means they see fit. They will lie, steal, and even cause harm to aquire their them. The only thing that will come out of further restrictions will be more harm to those who follow the laws because they've been further restricted on being able to protect themselves and their loved ones.
