

Submitter: Andy brown Brown  
On Behalf Of: The state of Oregon  
Committee: House Committee On Judiciary  
Measure, Appointment or Topic: HB3076

I strongly oppose this action. What this bill is doing is punishing those who have not committed crimes, this further increases regulating power in a place that has no reality in what actions are being demanded.

If this bill is used in the idea of saving lives then do something that actually saves lives from being ruined in coming times.

This by no means prevents crimes from happening.

I am born and raised in this state my entire life, and not only has in recent years taken shape of something that has become a caricature of where I was raised from. I have seen and been affected by what problems Oregon has had; This is not something that solves those problems.

I strongly ask for you to vote in opposition to something that doesn't help Oregonians.
