

Submitter: Melissa Gilley

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

Many businesses should be regulated, inspected and licensed for the health and safety of our citizens. In my community restaurants, nail salons, hairdressers, coffee shops, are all subject to laws to keep the community safe. The gun dealers should be subject to the same rules as these businesses as they are selling weapons that can kill, maim and damage people. It's the least we can do to make sure precautions are taken to prevent tragedies. It is common sense. Thank you for helping protect our communities by supporting this legislation.
