

Submitter: Pauline Wilkinson

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I, Pauline Wilkinson, born and raised in the great state of Oregon, OPPOSE house bill 3076. This house bill will only further destroy our second amendment rights, and will not save lives, it is an attempt to make it harder for us law abiding citizens to purchase guns, and make it harder for FFL's to sell guns. This will force our FFL's out of business. It will only create a larger black market for firearms and emboldening criminals making it harder for citizens to defend themselves. The attempt to pass this bill along with others is an act against our democracy, our constitution, and our God given right to protect and defend ourselves. Criminals never follow the laws and these restrictions only harm the law abiding citizens.
