

Submitter: Leslie Lukas-Recio  
On Behalf Of:  
Committee: Senate Committee On Natural Resources and  
Wildfire  
Measure, Appointment or Topic: SB1131

This Bill would provide the needed funding to help Chintimini continue to provide an invaluable asset to the public, both by accepting wildlife for rehabilitation and providing nature education, especially during times of environmental crisis such as wildfires and outbreaks of zoonotic diseases. It has been difficult for them to have stable funding to continue this service no less expand it. All residents of Oregon, human and non human benefit greatly from these programs and services, please support this bill and support continued funding.
