

Submitter: Lynanne Reed

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

“I, Lynanne Reed, born and raised in the great state of Oregon, oppose house bill 3076. This house bill will only further destroy our second amendment rights, and will not save lives. It is an attempt to make it harder for us law, abiding citizens to purchase guns, and make it harder for FFL’s to sell guns. This will force our FFL’s out of business. Ultimately, it will only create a problem by creating a larger black market for firearms and emboldening criminals making it easier for them to buy them. The attempt to pass this bill along with others is an act against our democracy and our constitution. This is an act of tyranny against our great state of Oregon and their people. It is only taking away our ability to protect our children, and taking away your children’s ability to protect themselves and their families in the future. It will not save lives, it will make it harder to defend life. We need to help the next generation to embrace their rights and freedom, not feed them fear which keeps them in bondage. To encourage our children to be strong and defend themselves and not to weaken them with fear-mongering. God Bless Oregon.”
