

Submitter: Daniel Williams

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

We absolutely need tight regulation of this industry. Human nature has shown time and again through history that there is no limit to the number of people willing to sacrifice others' well-being for their own profit. We need inspectors for gun dealers just as much as we need those for the food industry, to provide the greatest good for the greatest number of people.
