

Submitter: ERICH KOELLER  
On Behalf Of: safety minded river users  
Committee: Senate Committee On Energy and Environment  
Measure, Appointment or Topic: SB301

In 2022 sb 1589 established entirely appropriate protocols for the use of wakeboats on portions of the Willamette River. The current proposal to amend those protocols, contained in sb301, is counter productive and should not be advanced. I am firmly opposed to sb301.
