

No country has the number of guns as the US! There is no need for AK ---AR ---guns unless we are at war on our own turf! Sellers MUST be held accountable for the wide spread availability of all kinds of guns. No person who is a felon or domestic abuser should have the right to a gun. ALL guns must be registered. Our Police and Fire Members are at risk when they are not aware of guns.

Thank you for considering my sincere concerns,  
Julie Nader
