Committee: House Committee On Climate, Energy, and
Environment

Measure, Appointment or Topic: HB3932

For many reasons, we need to protect what beavers we have, and to save them from endangerment. Please approve HP 3932.

This bill is NOT about limiting beaver harvest and increasing beaver population.

Instead, this bill would enable beavers to access waterways where they need to be and remain long enough to perform their ecosystem functions without getting trapped out.
