

Submitter: Christy Abbe

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I urge you to oppose this bill. There are already federal regulations in place and further regulation will not help. The requirements for 24 hour surveillance will just be too expensive for small ffl's. There is no distinction in rules for manufacturers (gunsmiths) who have to register as ffl's and home businesses. This is a privacy issue for small home businesses.

The fee for the license is also burdensome for small businesses. It just seems like another way for the state to collect revenue and fuel the bureaucracy.

Please oppose this badly written bill.
