

Submitter: Michael Christoffersen

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I oppose this legislation as it infringes upon the 2nd amendment. This will not stop gun violence from happening. We should focus on the direct cause of the issues that make people want to do this sort of thing. It is a cry for help and resolved with violence. I feel that education to the public and offer a peaceful solution.
