

Submitter: Nicholas Andrews

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

This measure unfairly only affects law, abiding Americans like myself. I pay my taxes. I follow every law, and I've jumped through several hoops to obtain concealed carry licenses for several states. I buy all my guns from the gun store. Do a background check for every single one like I'm supposed to. I've never even been pulled over by a police officer in my life, and yet here I am being demonized for the actions of others. I should not have to suffer from this unconstitutional measure. Please do not let this measure pass, it's not like criminals follow laws anyway. This bill is unconstitutional and a direct infringement on all good Americans second amendment rights.
