Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3076

I oppose HB3076, It will do nothing to curb or lessen gin related violence in Oregon and surrounding states. HB3076 is not only a violation of our constitutional rights which restricts citizens from exercising there 2A rights, but it will also discriminate against all law abiding gun owners/ citizens of our state. Us law abiding gun owners of Oregon will be deemed criminals which is unfair and immoral most of us haven't even as much as had a simple traffic ticket. By restricting our rights of gun ownership will do nothing to curb gun violence because law breakers will always break the law. So I OPPOSE this HB3076.
