

Submitter: Jerry Fraser

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB698

This will do absolutely zero to keep criminals from possessing weapons of any kind in any location but instead will make the public unsafe and unable to be defended in such areas. Law abiding, tax paying citizens will be in danger with no way to protect themselves and the freedom to live given them by god and so written in our constitution, and will make law abiding citizens criminals to disregard the law because they choose not to be a victim. I strongly oppose this measure
