

Submitter: Serena Brigante

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB696

Simply put, any restrictions of firearms/accessories/modifications is a violation of the 2nd amendment. There wasn't meant to be a limit to what we have the right to own and maintain. Concerns for rapid fire capabilities are understandable, but criminals don't care about laws. Further restrictions would do nothing to save lives, and everything to create criminals put of otherwise law abiding citizens
