

Submitter: Jeremy Fox

On Behalf Of:

Committee: House Committee On Climate, Energy, and
Environment

Measure, Appointment or Topic: HB3932

The research shows that beavers help with water quality improvement, and passage of this bill is a step in the right direction for conservation both of the species and the watersheds. I have volunteered with Oregon Natural Desert Association on projects to improve beaver habitat, and the species needs legislative help as well, in the form of this bill's passage.
