Oppose SB696

SB696 makes no sense. Fully automatic firearms are already more strictly regulated than deadly drugs such as fentanyl, Heroin and Meth. This bill is only an attempt at grandstanding. It's an inevitable precursor to further infringements on our right to bear arms. We already have enough firearms regulations in place. Unfortunately, when criminals violate the laws, they go unpunished in our current court system. Fix the court system. Don't create new laws that violate the law-abiding citizens.
