

Submitter: Catherine Garner

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB301

As a resident of Portland and an active user of the Willamette River I oppose SB 301. Public safety, the environment plus ecological damage are my concerns. This bill benefits a few users. SB 1589 has worked, we have made progress improving the health and safety of the Willamette River, let's continue on this course. Please vote against SB301 and any change.

Sincerely,

Catherine Garner
