SB697

Why are going after our children and denying them the right for learning and taking a firearm safety course? I've owned guns since I was old enough (14) to respect and know the damage they can cause. It never ceases to amaze me how you folks in Government think you have the right to encroach on our civil liberties. If you don't get your way? you act like children and come after it from a different angle thinking this is OK, well it's not. So leave our second amendment alone and try doing something worth while that benefits the people of Oregon instead of taking away our rights.
