

Submitter: H. M. Sustaita

On Behalf Of:

Committee: House Committee On Climate, Energy, and
Environment

Measure, Appointment or
Topic: HB3932

At this crucial time when our country, and our forests and water ways, are and will be under attack by greedy profiteers - we must do all we can to protect the natural world around us. The beavers should be given their natural right to the water ways. Their protection will protect the others that call our forests and water ways home.
