

Submitter:	Ron Martell
On Behalf Of:	Oregon trappers association
Committee:	House Committee On Climate, Energy, and Environment
Measure, Appointment or Topic:	HB3932

I strongly suggest that Oregon leave management of Beavers and other wildlife to the ODFW and the game commission therefore I oppose HB3932

Wildlife management based on emotion never works

The harvest of beavers is carefully regulated by the 2022 mandatory harvest reports, there is not a problem that this bill fixes, but it will create more problems than any of the save the beaver crowd is even thinking about,

Please consider ,the cruelest thing we can do to beavers is fail to manage them properly

Thank you for your time
