Measure, Appointment or Topic: SB5515

Hello,

I support the continuation of funding for early childhood that is very helpful and effective for many families in the state. The continuation of the this support is more relevant in this time as more and more young children below the age of 5 are seeing the challenges in reaching the early milestones in their life. This program exactly addresses the type of issues such as speech/cognitive/social-communication and mental growth ADHD etc. among the young children. So I request to keep the funding alive.

Thank you.
