### Opposed

It is just a shock to see that you wish to put restrictions on those under 21 from having “specific” firearms or limiting them to only “specific” firearms. It’s very easily to say that we trust them with the most sophisticated firearms/other weapons known to mankind! As someone who has handled firearms for sixty years, I know they know more about various varieties than me. How ridiculous can you be?

Let’s not forget the common phrase “old enough to die for the country old enough to vote.” Therefore, we lowered the voting age to 18 and you would even like it lowered to 16. Regardless I don’t see how you can have it both ways. Either they are old enough to vote, die in a war while carrying a firearm or they are not. If they are then they are old enough here at home. Simple.

If you’re looking to “get tough on crime, gang violence, drive-by shootings” GET TOUGH ON CRIMINALS and publish that in the news, often in large print and on the front page.

Respectfully Submitted
