Please support Food For All. With current-day national political issues, the passage of this bill couldn't be more timely. Regardless of a person's financial state, age, or immigration status, no one should be going hungry or making difficult decisions over paying bills versus feeding themselves or their family. It's absurd that we live in an agriculturally rich nation and anyone within it would be food insecure. All of our neighbors deserve nutritious meals, whether it comes from programs like Meals on Wheels, meals for children out of school over the summer, or straight from the grocery store via SNAP. Thank you.
