Committee: House Committee On Climate, Energy, and  
Environment

Measure, Appointment or Topic: HB3932

I strongly urge you to support this legislation. I am a nature lover and scientist member of ONDA, Which is dedicated to protecting the special wild places in Oregon. The water quality in much of Oregon's streams and rivers is considered impaired and beavers play an essential role in maintaining good water quality. Please protect them and allow them to do their important work!
