Committee:

Senate Committee On Education

Measure, Appointment or Topic:

SB749

I am writing today in OPPOSITION to SB 749. I support allowing them education on the process, however, children hardly understand how to budget and balance everyday finances, let alone large, multi-million dollar budgets. A school budget should be the sole responsibility of a knowledgeable adult to hand such a matter. Our Oregon kids can hardly read, write, or even do math. That is where our focus needs to be: to get them caught up and excelling in the core subjects. I strong urge a NO vote on this bill.
