

Submitter: Vicki Hames
On Behalf Of: HB3932
Committee: House Committee On Climate, Energy, and
Environment
Measure, Appointment or Topic: HB3932

I am writing in support of HB3932, which bars the hunting and trapping of beavers on public lands. Scientific evidence has shown that beaver dams can greatly improve water quality issues in impaired streams and provide many benefits to our wild lands, including making the land more fire resilient. And they do all this great work for free. Please support the banning of hunting and trapping of beavers on public lands, and the important work that beavers do. Thank you.
