

Submitter:	Coryn Buckholdt
On Behalf Of:	
Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SJR28

This is to strongly encourage your support of SJR 28, the Environmental Rights Act.

This constitutional amendment is critical to a healthy future for all Oregonians. We are living in challenging times – for the first time in history our livable future is truly in jeopardy. Rigorous and statewide action to protect our environment should have been taken long ago. It is now long past due. This bill is a critical step to safeguard and protect the future of all Oregonians.

Oregon must join with other leadership states that have secured the human right to a clean and healthy natural environment. Our greatest responsibility is to ensure and support the wellbeing of young people and future generations. Climate science is real and threatens us all, but especially the future of the young. Please take a firm stand in support of this bill and against degradation of our fragile environment. Passing SJR 28 verifies your commitment.

Thank you.
